benefits.

FROM FIRST STEPS TO FULL HEALING – COMPREHENSIVE CARE FOR YOUR NEEDS

The Meadows Seasons meets two distinctly different needs under one roof: providing a reliable, clinically guided setting for short-term stabilization and a gentler environment for highly individualized treatment, all done with the extensive experience and expertise that comes with the Meadows name.

ABOUT US

We offer comprehensive, compassionate treatment for individuals facing complex mental health challenges. Our approach is designed to meet you where you are, offering in-depth support for those in need of intensive treatment across a variety of concerns. Whether you're navigating a personal crisis or managing long-term mental health conditions, we're here to help guide you toward healing.

WHO WE TREAT

We provide care for adults 18 and older who may be experiencing:

- Suicidal thoughts or recent suicide attempts
- Psychosis related to substance use or mental health conditions
- Eating disorders, including anorexia nervosa, bulimia nervosa, binge eating disorder, avoidant/restrictive food intake disorder (ARFID), and other specified feeding or eating disorders (OSFED)
- Active duty military experiencing an eating disorder
- Obsessive-compulsive behaviors
- Non-suicidal self-injury
- Complex cases of depression, anxiety, or bipolar disorder
- Recent manic episodes
- Medication changes requiring close observation
- Trauma or other deeply rooted mental health concerns
- Mature adults facing age-related challenges, such as grief, loneliness, life transitions, or chronic stress
- LGBTQ individuals seeking an affirming, supportive environment
- Co-occurring conditions related to substance use or mental health issues

PROGRAMMING

We specialize in high acuity and provide in-depth support for those with complex conditions. From clinically guided detox to ongoing residential care, our program is personalized for those needing supported, critical care.

NAVIGATING AN IMMEDIATE CRISIS

Clinically-Guided Detox and Acclimation to Treatment

In this safe and secure setting, patients can detox, acclimate to treatment, learn tools for self-regulation, and be assessed to ensure their success on our open campuses.

LONG TERM HEALING

Highly Customized Treatment in a Gentle Environment

Our 45-day residential program offers a supportive, tailored approach for those with unique needs.

BRAIN CENTER

In addition to traditional therapeutic modalities, our relaxing Brain Center features a variety of equipment designed to help with regulation and enhance the treatment and recovery process. We also offer biofeedback/neurofeedback, when appropriate, to decrease the physical manifestation of trauma in the body and balance and regulate the brain.

JERRY L. LAW, DMIN, LCDC, CMAT, CSAT, CIP *Group Executive Director*

Dr. Jerry Law has a longstanding relationship with Meadows Behavioral Healthcare, having held key leadership roles, including Executive Director of Gentle Path, Willow House, and The Meadows Texas residential treatment programs. He also served as Director of Family Education and Leadership Training for MBH, working with family members of those in treatment. In 2021, Dr. Law was appointed Executive Director of The Meadows, our flagship program, and in 2024 he was promoted to Group Executive Director for both The Meadows and The Meadows Seasons. In this role, he is responsible for overseeing day-to-day operations, working closely with the clinical team to deliver exceptional care and ensure excellence throughout the treatment process. Dr. Law also collaborates with senior leadership and the Meadows Senior Fellows to maintain the continuity of care that defines MBH programs worldwide.
